## Work History

---

11-2022- Current

### Founding Member

*Lang.Guru, Oakland, CA*

Lang.Guru is a language-learning platform utilizing the latest NLP techniques to reinvent language learning and education.

As a founding member, I am involved in business and technical problem-solving.

Designed logo, animated splash screen, UI and visual assets.

Developing Web service for Lang.Guru API.

Developing data analysis techniques which transform findings from large-scale multilingual datasets into a smarter user experience.

1-2023- Current

### Digital Composer

*Plymptoons Studio, New York, NY*

Working with producers to solve complex problems.

Using Adobe Creative Suite to make clean transparent elements from scans and assemble into polished scenes.

04-2022- Current

### Translator and Interpreter

*Respond Crisis Translation*

Translating legal and medical documents between Russian and English.

Interpreting over phone for individuals seeking asylum.

12-2020- Current

### Language Tutor

*Wyzant*

Teaching Russian and ESL/ESOL to students of diverse backgrounds, ages and fluency levels.

Curating and developing materials to help students develop their language skills.

Creating a supportive and positive atmosphere to encourage inquisitive learning.

## Education

---

12-2021-  
12-2022

### Software Development Certification

*Truman College - Chicago, IL*

Took courses in high and low-level programming languages as well as database and web design. Projects while enrolled include Torah reader, website for an animated series, text-to-speech fitness application.
